

Sense Community Outreach Project

Are you a parent or carer of a child aged between 2-8 years?

Come and find out about how sensory play will help your child, get hands on and have some fun together!

Sensory play is vital for a child's brain development and encourages learning. Sensory play can improve children's social, emotional and communication skills, and we can show you how sensory play can be done at home.

Sensory play in the home is easy. It can be done at little or no cost, using basic household items and store cupboard ingredients. Examples might include homemade treasure baskets, scented play dough, rainbow rice or foam, cornflour slime, lentil shakers and sensory bottles.

Our Outreach Worker will be attending the following family session:

DATE: Thursday 17th July

TIME: 1pm-2pm

LOCATION: Unique Ways, Hanson Lane Enterprise Centre, Hanson Lane, Halifax, HX1 5PG Please call 01422 343090 or email hi@uniqueways.org.uk to book a space
